

## Cheetham Salt Products

### Nutritional Information

Salt is exempt from carrying a nutrition information panel (NIP) on packaging under the Australian Food Standards Code (clause 2(1)(a)-(f) of Standard 1.2.1, Application of Labelling and Other Information Requirements) UNLESS it has a nutrition claim. No nutrition claim is made on this product.

Parameter	Average Quantity Per 100g
Energy:	Nil
Protein (g):	Nil
Fat – Total (g):	Nil
Fat – Saturated (g):	Nil
Carbohydrates – Total (g):	Nil
Carbohydrates – Sugars (g):	Nil
Dietary Fibre (g):	Nil
Sodium (mg):	39,000
Potassium (mg):	15
Calcium (mg):	50
Cholesterol (mg):	Nil

### Allergen and Dietary Information

Parameter	Presence (Yes or No)
Peanut and Derivatives	No
Wheat and Wheat Derivatives	No
Gluten (from wheat, barley, rye and oats)	No
Crustacean (e.g. prawn, crab, crayfish)	No
Tree Nuts	No
Milk (including lactose)	No
Lactose	No
Soybeans and derivatives	No
Mollusc Species (e.g. mussel, clam, oyster, scallop)	No
Fish and Fish Products	No
Sesame Seeds and Derivatives	No
Barley, Malt, Oats, Triticale	No
Corn and Derivatives	No
Egg and Derivatives	No
Added Sugars	No
Added Salt (NaCl)	Yes (product is NaCl)
Added MSG	No
Artificial Colour & / or Artificial Flavour & / or Artificial Sweetener	No
Preservative	No
Sulphite	No
Antioxidant	No
Hydrolysed Vegetable Protein	No
Yeast and Derivatives	No
Spices, Herbs and Extracts	No
Allium Genus (e.g. onion, leek, garlic etc.) and Derivatives	No
Legumes (e.g. beans, peas, lentils etc.)	No
Animal Derivatives (animal flesh, bone stock, animal fat etc.)	No
Royal Jelly, propolis and bee pollen	No
Ethanol, red wine alcohol	No

### Genetically Modified Foods (GMO)

Salt or sodium chloride cannot / is not genetically modified. Salt is a traditional (non-GM) food. Salt contains no genetically modified ingredients and does not come into contact with any genetically modified materials. No labelling statement is required in accordance with Clause 6 of Australian Food Standards Code Standard 1.5.2 Foods Produced Using Gene Technology. Gene modification can only be applied to alter the heritable genetic material of living cells or organisms, salt and additives are from non-living sources. Cheetham Salt Limited does not purchase, use or have products or additives made from sources where there is potential for use of gene technology and therefore does not have documented segregation systems, identity preservation systems or analytical test regimes to confirm absence of GM material.
